# Welcome to eSmart Recycling's E-RECYCLING DRIVES

*Through our Community and Corporate E-Recycling Drives, we invite neighborhoods and businesses alike to join us in a collective effort that not only addresses environmental concerns but also fosters digital literacy and community growth. Whether you are looking to engage your community in a meaningful project or aiming to enhance your company's commitment to sustainability, our drives offer a path to make a tangible difference.*

## ***eSmart Recycling***

combines environmental sustainability and social impact metrics which results in a holistic approach to offsetting carbon emissions through recycling technology, both at a corporate and residential level, and the empowerment of local communities by enabling access to technology and education.

# CORPORATE E-RECYCLING DRIVES

Share corporate Sustainability and Social Responsibility

Tailored for companies with a commitment to sustainability, our Corporate E-Recycling Drive enables Sustainability and IT Directors to establish a formal program that not only recycles electronics but also fosters a positive culture, measures employee engagement, and supports underserved communities.

# The Benefits

## Sustainability Commitment

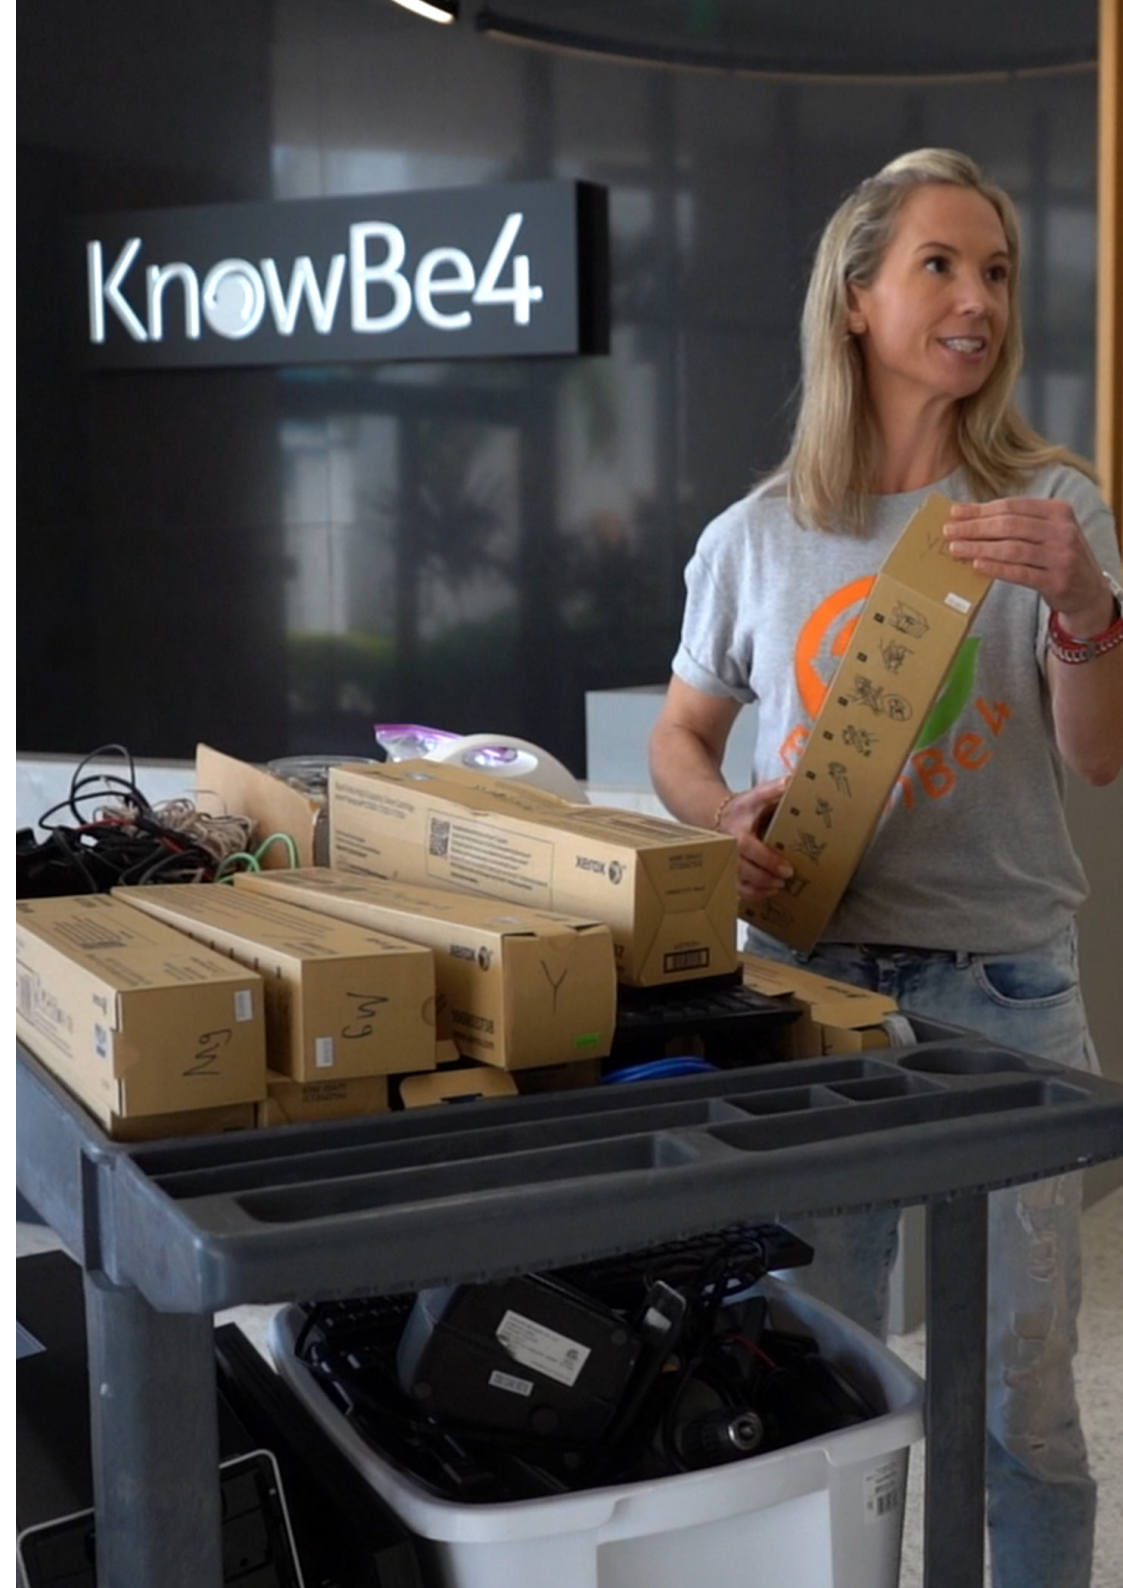

Showcase your company's commitment to environmental sustainability, and create a powerful narrative that brings together your entire team.

## Secure Data Destruction

Offers peace of mind by guaranteeing that all personal and sensitive data on electronic devices is securely destroyed, mitigating the risk of data breaches.

## Equality of Opportunity

Become a catalyst for positive social impact and join us in the E-Revolution to ensure everybody has sustainable access to technology, connectivity, and education.

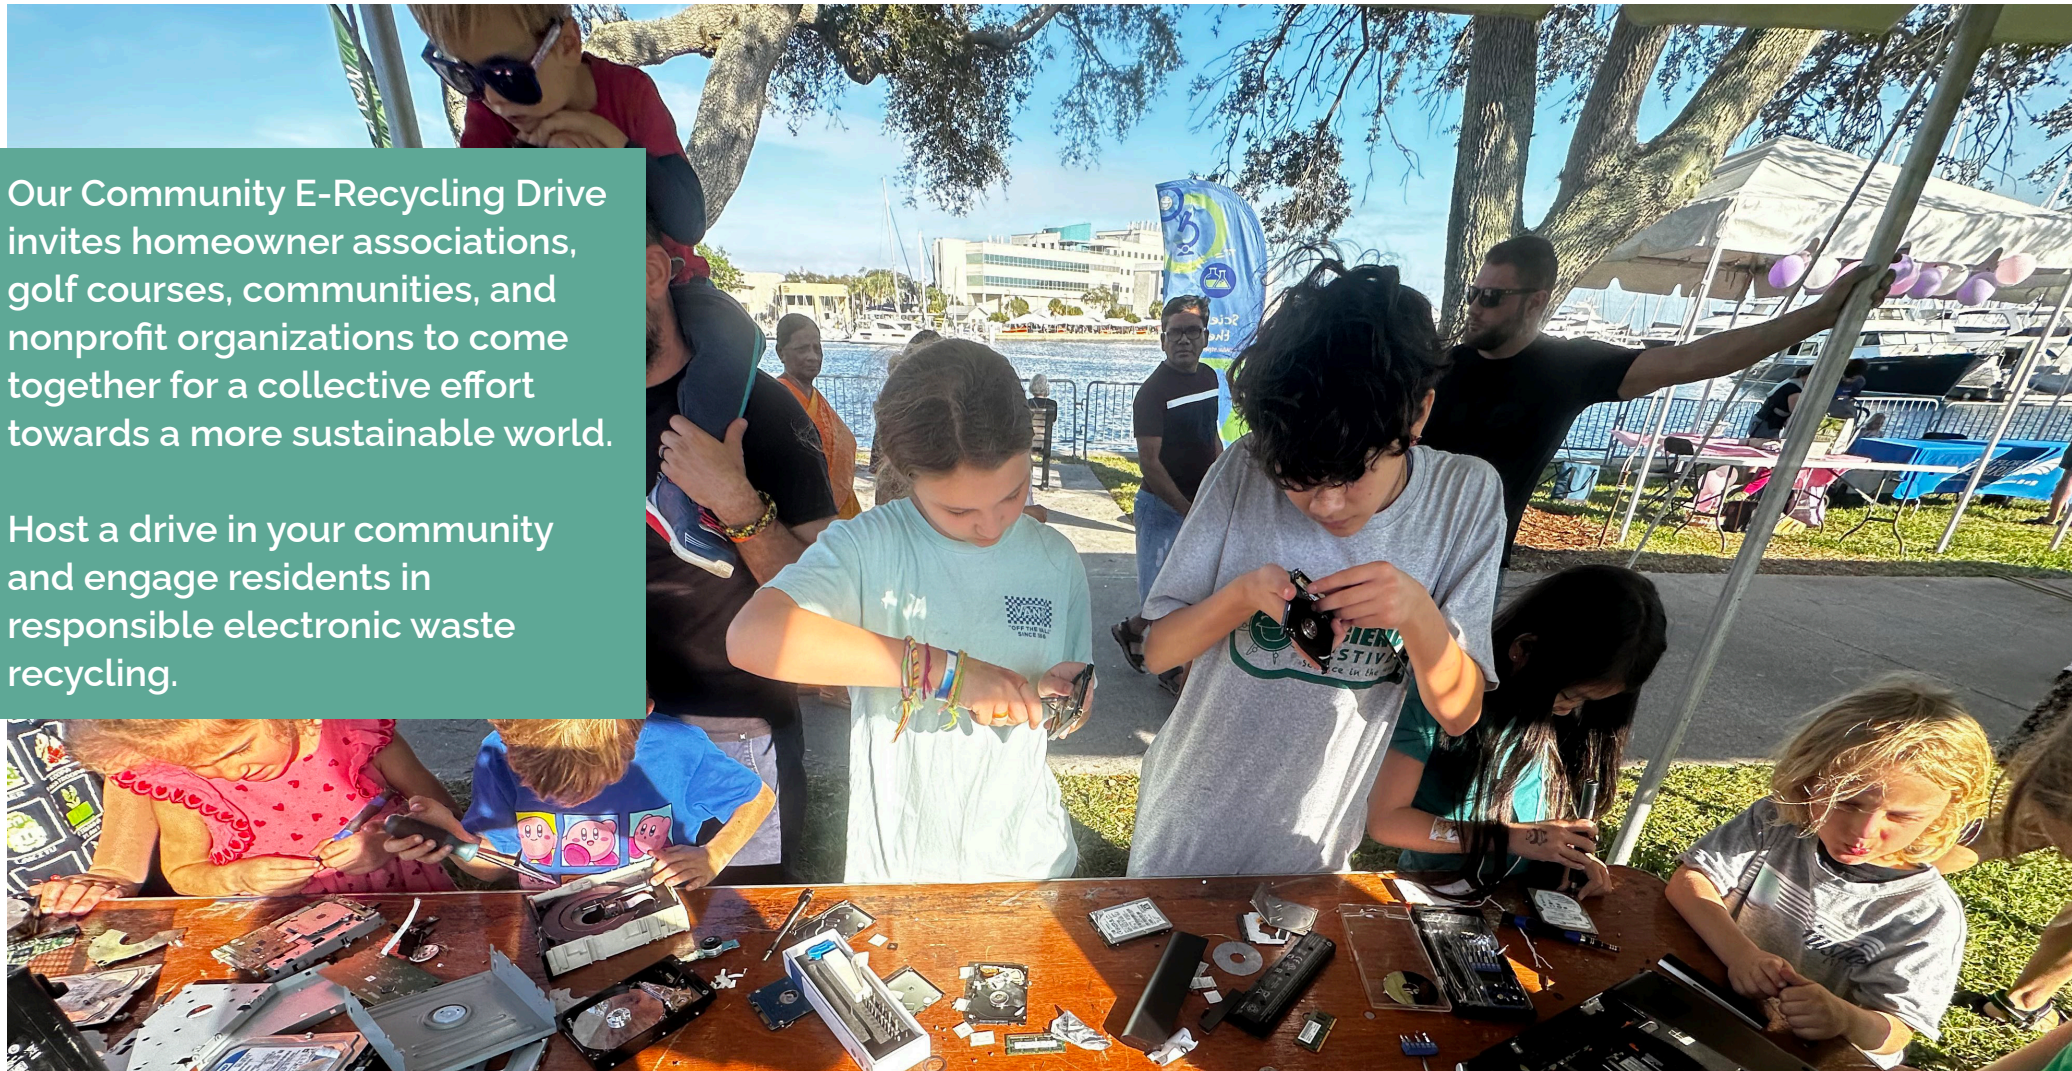

# COMMUNITY E-RECYCLING DRIVES

Unite your community in an Impactful way

Our Community E-Recycling Drive invites homeowner associations, golf courses, communities, and nonprofit organizations to come together for a collective effort towards a more sustainable world.

Host a drive in your community and engage residents in responsible electronic waste recycling.

# The Benefits

## Enhance Community Engagement and Environmental Awareness

Fosters a sense of unity and responsibility among residents, promoting actions that contribute positively to the environment and community welfare.

## Safe Disposal of e-Waste

Provide a responsible way to dispose of unwanted electronics, preventing harmful substances from polluting the environment and reducing the amount of waste in landfills.

## Supports Digital Literacy

Learn about your social impact footprint when you recycle with eSmart Recycling because a portion of the proceeds go towards supporting digital access in vulnerable communities, worldwide.

# THIS TURN KEY PROGRAM WILL HELP YOU

---

## Lead by example

Set yourself apart and provide a tangible solution to the digital and literacy gap in our communities.

1

## Become a part of the solution

Get everybody involved behind a powerful cause and share the entire story with your stakeholders and shareholders.

2

## Protect your data

Award-winning service. Rest assured knowing you are working with an industry leader in compliance and data security, with a successful track record in the community.

3

## Increase your bottom line

Save money and resources by using an affordable solution that aligns with your sustainability efforts.

4

# E-RECYCLING DRIVE ROADMAP

---

*\* timelines and specifics can be adjusted to meet partner's target goals and desired outcomes*

# WHAT YOU NEED TO KNOW?

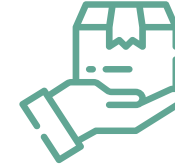

## Hyper-Targeted Service

Only available to select organizations. For the most part, the service has little to no cost to participants. It will be handled in a case-case basis.

## How can I promote it?

We can get as creative as the partner comfort level permits. This turn-key solution comes with digital assets to help distribute the message, and help guarantee a successful outcome.

## What items do you accept?

Basically, anything with a cord, plug, switch, and/or battery. We don't accept are fluorescent lightbulbs, and CRT TVs. Detailed list at our webpage.

[www.esmartrecycling.com](http://www.esmartrecycling.com)

## What organizations do you support?

We have strong partnerships with amazing nonprofits in the communities we serve, as well as internationally. Complete list at [www.esmartrecycling.com/impact](http://www.esmartrecycling.com/impact).

## What happens with the data?

We remove hard drives, and other data containing devices. They are shredded and we issue general certificates of data destruction. We follow ISO and AAA NAID Data destruction compliance and policies, and a HIPAA Compliant chain of custody.

# JOIN THE MOVEMENT

*“Participating in eSmart Recycling’s E-Recycling Drives is a straightforward and rewarding process. Whether you’re looking to engage your community or your organization, here’s how you can join our environmental and social mission”*

## COMMUNITY E-RECYCLING DRIVE

We'll collaborate with you to select a suitable date and location for the event. Our team will provide all the necessary materials and guidance to ensure the drive is a success, from promotional materials to help spread the word to logistics support on the day of the event. It's a great way to unite your community for a common cause, promoting sustainability and responsible recycling practices.

## CORPORATE E-RECYCLING DRIVE

We offer a comprehensive program that includes secure data destruction, electronic waste collection, and a detailed report on the environmental impact of your contribution. This program is an excellent opportunity for companies to demonstrate their commitment to sustainability and social responsibility, enhancing corporate culture and employee engagement in impactful initiatives.

**Schedule a meeting with us!**

# "The eSmart Way"

We understand the importance of managing your IT Asset Disposition and Recycling your technology at the highest compliance standards; from a Data Security to an environmental stewardship perspective.

## Our Pillars:

### Environment

*"To keep harmful electronics away from waste streams"*

### Scale

*To use a portion of our proceeds to ensure every family in the community has access to technology, connectivity, and access to education.*

### Impact

*"To empower people in the communities where we live and work"*

Each customer becomes a partner in these efforts and all of the goodwill, data, impact, and visibility are directly and indirectly shared with every stakeholder in the process. Our partners are considered good environmental stewards and catalyst in making a social and economic impact in the lives of thousands of people in our communities.

# A SMART PROCESS YOU CAN TRUST

# MEASURABLE AND TANGIBLE IMPACT

Measure your environmental and social impact footprint in real-time and share with your stakeholders and shareholders.

## YOUR IMPACT, READY

We keep track of everything that gets recycled and help you access and download all of your information with the click of a button.

Share your results in a way that it's easily accessible for you, your team, and even your customers to see in real-time.

Download all of your documents and certificates, and see how you are making an Impact in the communities you serve.

**eSmartRecycling**

*If you are ready to join the E-Revolution and host an E-Recycling Drive in your community, school, or organization, get in touch with our team, and we will support you from beginning to end, to ensure your efforts become a catalyst for positive social impact in your community.*
